CANTON GAME AN ATTRACTION

Massillon-Canton After World's Professional Championship

SALEM ROOTERS THERE

Final Arrangements Made for Benefit Game in Salem Saturday—Only One Game to Be Played Here Thanksgiving Day.

Football enthusiasts in this part of the country have directed their ways toward Canton today, while others at home eagerly await news from that direction. Canton is fairly alive with visitors today, and the red and white or the orange and black is seen on almost every thoroughfare of the city. The cause of all this excitement is the greatest football game of the season which began at 2 at Athletic park, near Meyers lake, where the Massillon Tigers and the Canton Bulldogs are contesting for the world's professional championship honors.

About 40 rooters went over the Stark Electric today and a few went by way of the Pennsylvania, while there were joined by a large crowd from Lisbon, who drove overland to this city. Enthusiasm is running high here over the game, and bets of all sizes and descriptions are being made, even from the small boy, who bets his top against his playmate's marbles, to the workingman who bets his day's earnings against his neighbor's hat or overcoat.

Each team has been practicing faithfully for several weeks past, and each team has been scouring the country for players in an endeavor to win that hard and bloody struggle, the result of which means victory and unlimited joy to one and humiliating defeat to the other.

Final arrangements have been made for the battle to be waged at Centennial park Saturday afternoon at 3 between the high school football team and the representative team of the city. After expenses have been taken from the gate receipts the remainder will go for the benefit of Frank Clayton, neither team receiving any of it. As a part of the contract the first team management has agreed to book no game to be played in this city on Thanksgiving afternoon. The Salem-Wellsville high school game will be the only one to be played in this city on that day, and should attract a large and enthusiastic crowd of supporters. The high school boys have not practiced any this week owing to unfavorable conditions, but expect to put up their usual star game Saturday. The first team will probably be strengthened by a few of the South Side players who made good in their game with the first team a couple of weeks ago.

The high school team has not yet arranged a game for the Saturday before Thanksgiving, but is making an effort to secure Leetonia or some other light team in the nearby towns. They may play the second team of the school for a practice game, as they do not wish to go up against a hard team, but wish to be in good condition for the Wellsville game.

JEWELL HEARING BEGUN

Youngstown, Nov. 16.—A criminal proceeding that is highly flavored with sensationalism was begun Thursday in common pleas court when William Jewell, one of the most prominent residents of the village of Sebring, was placed on trial for an alleged criminal assault on Pauline, the 15-year-old daughter of John Ruttman, of the same place. About 25 witnesses are in attendance.

The date of the alleged offense is August 21 of the present year. Miss Ruttman, who is a decidedly attractive girl in appearance, was formerly employed as a domestic in the Jewell home, but later went to Cleveland and entered the Convent of the Good Shepherd, where she was discovered by Sheriff DeNormandie. Leroy Maley was indicted with Jewell.

Sebring Witnesses Attending.

Sebring, Nov. 16.—Over 20 witnesses from here are at Youngstown today participating in the trial of William Jewell. The case is attracting more attention than any case ever brought from this section of the county. The witnesses include some of the best known people of Sebring. The trial was commenced Thursday, and resumed at 9 o'clock this forenoon.

An Order From Japan.

Sebring, Nov. 16.—The Keystone Steel Co. of this village has just received an order for 1,000 steel trolley wheels, to be delivered to a firm in Japan. This firm has been doing a big business in this product during the past few months.

Captain Maltby Here.

Staff Captain Maltby of the Youngstown Salvation Army corps arrived in Salem Friday forenoon, and will be here this afternoon and evening on business at the Salem barracks.

MANY WANT CHANCE AT THE PIE COUNTER

CONGRESSMAN RECEIVES NUMEROUS APPLICATIONS.

Aspirants for Postmaster Jobs in the Eighteenth District Are Becoming Active.

Youngstown, Nov. 16.—Congressman Kennedy is already being besieged with applications for postoffice appointments throughout the Eighteenth district and with letters from friends of applicants urging their appointment.

The tenor of the letters is to the effect that "now that the election is over and the congressman has had time to turn his attention to the serious consideration of appointments," etc., etc.

Most of the applicants insist that present incumbents have had their share of the spoils and should be asked to get down and out and give others a chance at the pie counter. In Wellsville a contest for postmaster, has apparently, already developed, the present postmaster, Mr. Snowd, being an applicant for re-appointment.

Under the ruling of President Roosevelt in applying civil service regulations to postmastership appointments the congressman of a district is somewhat handicapped in having his recommendation for appointments for postmaster allowed by the postoffice department, the rule being that re-appointment of incumbents depends largely on the records made by the incumbent, and where found satisfactory to the department the record shall stand against the recommendation of the congressman.

It is the intention of Congressman Kennedy, however, to give his personal attention to all applications for appointments, and to insist on having his say so in the making of such appointments.

BANK FOR NEW WATERFORD

New Waterford, Nov. 16.—The prospects are good for the establishment of a banking house here, something the village has been sadly in need of for years. W. H. Gray, manager of the Wilson & Payne branch of the Euclid Avenue Trust Co. of Cleveland, representing a party of Cleveland capitalists, has been looking over the field. He wants part of the capital subscribed in New Waterford, and has met with substantial encouragement. New Waterford people now have no banking facilities nearer than Columbiana or East Palestine, and the volume of business here, especially in the apple and potato season, would amply justify the support of a good bank.

Installing New Machinery.

The machinery for the equipment of the Main Street Car Indicator and Advertising Co. at Thelma City, near Alliance, is arriving and being installed. The machinery arriving is of that order which marks the plant as one of substantial and expensive equipment, the capacity tending toward a large extensive business.

MILKMEN WILL TALK IT OVER

Considerable Objection to the No Sunday Delivery Plan

NOT ALL HAVE AGREED

Local Party Said to Have Threatened to Start a Milk Depot in Salem—Others Threaten to Stop Buying Milk.

A meeting of the milkmen who deliver in Salem has been called for Saturday evening at the rooms of the Business association, when the plan to do away with the Sunday delivery of milk during the winter will receive further discussion. Last Saturday evening at the meeting held in the ten cent hitching barn 15 of the 18 milkmen agreed provisionally to do away with Sunday delivery, but it is understood that some, at least those not present, do not take kindly to the plan, and this has caused a division of opinion among the others. The matter will be thoroughly talked over Saturday evening, and some conclusion reached if possible. Part of the dealers say they will try the new plan if the others do not. It is understood that a party not now in the milk business threatens to start a milk depot in case the Sunday delivery is done away with, and this caused some to hesitate.

Rather violent objection to the plan of no Sunday delivery is said to have been raised by a number of milk customers, especially by working men employed in the shops. Several have, according to statements by milkmen, threatened to quit taking milk altogether if Sunday delivery is abandoned and resort to the use of condensed milk instead. The fear that milk could not be kept fresh and wholesome over two days, probably ill founded, especially at this season of the year, is thought to be responsible for much of the protest.

PREPARING FOR INSTITUTE

Leetonia, Nov. 16.—Supt. J. W. Moore is busily at work on arrangements for a county teachers' institute, which it is expected to hold here on Saturday, December 8, providing the plans can be carried out. Dr. C. C. Miller of Lima has consented to make an address, and at least one other well-known speaker will be secured. Papers will be prepared and read on various topics of interest by representatives of the schools at Salem, Lisbon, East Palestine, Columbiana and one or more from some of the rural schools. A good attendance from the northern schools in the county is expected.

HUNTERS HAD FAIR LUCK

The hunting season opened Thursday with a wholesale raid on the neighboring wilds by Salem hunters. So far as reported the opening of the season was not productive of any fatalities in this vicinity. Many parties of hunters were out all day, and some were attended with very good luck, while others were not nearly so successful.

Some good catches of rabbits, which are reported fairly plentiful, are reported, but the day seemed to be a bad one for quail, and very few good catches of birds are reported. Quail are more plentiful this season than last, however.

Mobile Family Increased.

Born to Mr. and Mrs. Frank Miller of Mobile, Ala., a ten-pound son.

Insists Township Must Transport His Children

Youngstown, Nov. 16.—John F. Ruggles has brought suit in mandamus against the board of education of Berlin township alleging that the board after having consolidated nine sub-districts into five in December, 1905, abolished the system of free transportation of children to the schools. In consequence he claims that his three children have been unable to attend school since January of the present year on account of being unable to walk the 3½ miles between the house and the school house.

Ruggles says that he has been a resident of Berlin Center for 20 years. He asks that the board be compelled to resume the transportation of the children free.

Installing a Big Condensing Plant

Winona, Nov. 16.—The Winona Creamery Co. has begun the installation of an extensive plant for the condensing of milk and cream at its plant here, and is building an addition to the present building. It also requires the addition of an 80 horse power boiler to furnish the heat for condensing.

The condenser proper is made of copper, and weighs about 3,000 pounds. The milk is heated by steam, under a partial vacuum, which allows the fluid to boil vigorously at about 150 degrees, so that the product does not have a scalded flavor.

It is understood that for the most part only the skimmed milk will be evaporated, although whole milk or cream can be treated when there is a surplus. For the skimmed milk this process will supplant the making of milk curd, which has been the method used by the Winona Creamery Co. for several years for the disposal of its skimmed milk. The installation of the system will require some time, and it cannot be put in operation for a few weeks.

DEATH CAME TO THE INJURED ENGINEER

L. M. Holloway, a native of Salem, died at 11 o'clock Friday forenoon in a hospital at New Castle, Pa., the result of injuries sustained in the wreck of the P. & L. E. passenger train there late Tuesday afternoon. Mr. Holloway was engineer of the train, which struck a huge sawlog which was being hauled across the crossing. He sustained serious internal injuries.

Mr. Holloway was 58 years old, and was born and raised in Salem, being a son of Edwin Holloway and wife. In early life he resided successively in Salem, Damascus and Beloit, where he is survived by various relatives. He was well known in this vicinity, and had been a railroader upward of 20 years, having served as an engineer for the past 20 years.

While living at Damascus he was united in marriage with Sarah Haney of that village. She survives, with the following children: Willis of Columbus, formerly of Salem; Walter of Braddock, Pa., and Ella and Edwin Holloway, who reside at the family home in McKees Rocks, Pa. The deceased is also survived by the following brothers and sisters: Isaac of New Mexico; Mrs. Rhoda Pim of Damascus; Jesse of Allegheny; Joseph of McKeesport, Pa., and Mrs. Alice Woolman of Beloit.

The funeral arrangements have not been decided upon. It is possible that the remains may be brought to Damascus for burial.

LEETONIA NEWS BRIEFS

Leetonia, Nov. 16.—The village school board has granted the high school the use of one of the vacant schoolrooms at the high school building for a gymnasium and basket ball hall. The girls of the school contemplate the organization of a basket ball team.

James A. Swan, a Pennsylvania brakeman, had the fingers of his right hand badly crushed between the bumpers while coupling cars in the local yards Thursday. The injury necessitated the amputation of the middle finger. Swan resides at Avalon, Pa.

M. R. Gano, who has been employed for some time in the office of the Salem Iron Co. here, has resigned and accepted a position as purchasing agent for Dimmick & Co. of Philadelphia.

In a raid on the Mellinger & Co. drug store here some time Monday night, burglars looted the cash register, which they unlocked, and made way with about $20 in money. Entrance was gained via a cellar window.

SPLENDID APPLE CROPS

Lisbon, Nov. 16.—Infirmary Director George W. Armstrong, one of the most extensive apple growers in the county, reports a yield of 4,100 bushels of picked and 400 bushels of dropped apples from his 16-acre orchard. He attributes his success to judicious spraying. He says every sprayed orchard yielded well this year, while the crop was practically a failure in orchards that were not sprayed. James Phillips of the vicinity of New Waterford will have about 2,000 bushels this year.

Going to Honolulu.

Miss Gertrude Baker, librarian at the Carnegie library in East Liverpool, will about January 1 assume entire charge of the government library at Honolulu, Sandwich Islands. Miss Laker has been in charge of the East Liverpool institution for about five years, having gone to East Liverpool from Mt. Vernon.

She will be succeeded at East Liverpool by Miss Harriet Goss, now librarian of the Carnegie library at Alliance.

NEW ROAD LAW GOES INTO EFFECT DEC. 1

The new road law in Ohio, which goes into effect December 1, does away with the election of road supervisors, and persons to take their places will hereafter be appointed by the township trustees. Each township will be divided into not more than four districts, and a road superintendent will be appointed for each district. Under his direction the roads are to be improved, the two days' labor done and the township road tax worked out. But the superintendent at all times must work under the direction of the trustees, who may discharge any superintendent when they see fit. The superintendent may employ laborers and pay them not more than 17½ cents an hour and for a team not to exceed 25 cents an hour.

Every male between the ages of 21 and 55, except soldiers, members of the National Guard, etc., must work out his two days or pay $3 in money. The work is to be done between April 15 and July 1. The $3 can be collected from the one refusing to work, and he has no exemption.

WILL INSPECT BRIDGE

Lisbon, Nov. 16.—The county commissioners have decided to employ Edwin K. Morse of Pittsburg, a noted bridge expert, to inspect and report on the condition and capacity of the Canton bridge here for bearing additional weight in the way of a concrete floor and other improvements contemplated. Mr. Morse inspected the Elkton bridge for the Wabash railroad company about a year ago. He will probably commence to take measurements the first of the week.

This bridge is about 400 feet long. The original structure was built many years ago, and some years ago an addition to the west end was necessary. There seems to be no doubt about the new part being of sufficient strength for the purposes in view, but it was though prudent to determine the capacity of the original structure.

GOVERNOR HARRIS BETTER

Columbus, Nov. 16.—Governor Harris' condition was much improved yesterday. He is not confined to his bed, but is not allowed to leave his room. Mrs. Harris is very devoted to the governor in his illness and personally administers all of his medicine. The pains in his breast have almost entirely disappeared, and all danger from pneumonia setting in is now believed to be past. On account of the governor's age the development of the latter complication was most feared.

ANOTHER CHAUTAUQUA

Alliance, Nov. 16.—The directors of the Alliance Chautauqua Co., which has during the past two summers held successful Chautauquas at Lake park, are already arranging for that of 1907, which, it is expected, will excel either of the preceding seasons. The dates selected for 1907 are July 26 to August 4, and it is planned to introduce some new features. The place has not been decided upon as yet, and a special committee is working on the program. It is thought by starting arrangements so early that better talent can be secured.

Annual Dinner Served.

The annual turkey dinner given by the ladies of the society for the Home for Aged Women, as a benefit for the home, was held Thursday evening at the former Falkenberg room on Broadway. It was a decided success, the attendance being well up to the usual standard.

TO ENCOURAGE PATRIOTISM

Ohio S. of R. Society Endeavoring to Educate Foreigners

GOOD WORK IN COLUMBUS

Invited to Attend Meetings Where Speakers Instruct Them in the Principles of Good Government—Foreigners Show Interest.

Columbus, Nov. 16.—The Ohio Society of the Sons of Revolution within a short time expects to put into active effect throughout the state its plans of encouraging foreigners residing in the state to take an interest in this government and become citizens. The movement was started last winter, and the intention is to put committees at work in each city in which there is a chapter of the society.

These people will be invited to attend meetings, which will be addressed by good speakers, who will do their best to instruct them in the principles of good government and teach them the lesson of patriotism. Col. W. C. Curry of this state, the state registrar, is taking a leading part in the movement. He believes that a great good will result from it. He believes it is the duty of every citizen and lover of good government to aid in it, and is confident that the work undertaken by the society will be taken up by other organizations and that great good will be accomplished. He says that an interest should be taken in the foreigner who is here. He should be made acquainted with the standards of our government and encouraged to become a citizen and do his duty as such.

Several meetings have been held here among the Hebrews, and the interest they showed in them was greater than expected and resultant good very gratifying to those having the movement in charge. The foreigners who become naturalized do missionary work among their fellows, and the zeal they show is proof of their sincerity.

SALEM LADY AN INVENTOR

Mrs. Comley Townsend of Ellsworth avenue has recently patented "The Monarch," an improved device for the extermination of lice, red mites and other vermin with which poultrymen have to contend. The invention consists of a perch attachment located at each end of the perch. A strip of woolen fabric is tacked along each edge of the perch flush with the top. The insecticide employed within the receptacle is in the nature of a fluid, and is automatically fed to the absorbent strips by means of a wick. It will work its way along the wick by capillary attraction, and has an exterminating effect on all vermin. The advantage of the invention lies in the fact that, through the automatic feeding to the absorbant strips of the insecticide, the perch is kept thoroughly saturated at all times, instead of being painted one day and then left for weeks untouched.

Mrs. Townsend has already placed her invention on the market, and is meeting with material success.

Will Play in Leetonia.

The management of the South Side Athletic football team has secured a game for Saturday with the Leetonia high school eleven at Leetonia, and the Salem boys will go over the Pennsylvania railroad, leaving here just after dinner.

SATAN'S GRIP LOOSED BY MUSIC OF BANDS.

Chicago, Nov. 16.—Brass bands for recruiting members of the church were advocated by the Rev. A. W. Byrt, superintendent of the Brooklyn Church society, at a meeting of the National City Evangelization union.

"Give me a brass band," said Dr. Byrt, "and I will attract hundreds of persons, out of whom members of the Methodist church will be made."

"Americans will be content with their political conditions only when they are convinced that they are getting a square deal," says The Nation of New York. That sentence ought to be kept kept ringing in the ears of every Republican congressman and senator from now until the adjournment of congress. Surprise is often expressed that there is much unrest in times so prosperous as the present, but the explanation is found in the above quotation. It is the feeling that the people have not been getting a square deal that has been responsible for discontent, and it might be added that it is the confidence of the people in President Roosevelt which makes him the great leader that he is. They feel that he is sincerely and fearlessly striving for the square deal.

There is a good deal of local interest in the astonishing report that much relief money sent to San Francisco from various parts of the country some months ago has been stolen by persons engaged in the relief work. It is fortunate that owing to the fact that much of the money was sent by mail the federal government is interested, and federal authorities express their determination to apprehend and properly punish the guilty parties. Nothing more dishonorable than the theft of relief funds can well be imagined, and it is highly important that sure and swift punishment be administered that the public will not in the future hesitate to subscribe to needy relief for fear that a large part of the money will be stolen.

A Missouri paper claims to have discovered a farm in that state which is a four-storied affair. Under the surface is a deposit of shale used in making brick. That is the first story. Above is a vein of coal—the second story. On the surface is a fine crop of clover—the third story, and above this apple trees are filled with fine apples—the fourth story. That sort of thing may be a novelty in Missouri, but here in Columbiana county such farms are numerous.

Collier's calls upon Hearst to reform himself, to abandon his ambition for office, cut out self-laudation and to begin an earnest endeavor to do good and to assist in elevating his fellow man. If Hearst should adopt such a course he might acquire considerable more genuine fame and popularity than he has ever known, but the probabilities are that Collier's appeal will fall upon deaf ears. It is too much like asking Bryan to quit talking.

East Liverpool baseball promoters have practically decided to cut out league baseball and conduct the game in that city independently, as the Salem team has been managed for several years. Salem's very brief experience with league ball has proven the wisdom of independent playing.

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. CATTLE BUYER MISSING

Williams' Roll Believed to Have Led to his Murder.

Scranton, Pa., Nov. 16.—David Williams, a wealthy cattle dealer of Lancaster, is reported to be mysteriously missing from Poyntelle, where he arrived last Friday to buy cattle. When the farmers of that region came with the cattle that Williams had bought they failed to find him at the three cattle cars which he had switched near the Poyntelle station and when a search was made for him at the hotel his room was found locked. The door was burst open but Williams was not within, although his baggage was there. It is feared that he has been murdered and robbed, as it was generally known that he carried a large amount of money with which to pay for cattle.

VIEWS GREAT DITCH

President Roosevelt Spends Busy Day on Isthmus of Panama.

WELCOMED BY SCHOOLCHILDREN

Colon, Nov. 16.—President Roosevelt has spent a busy day on the Isthmus of Panama and settled for the night at the Tivoli hotel, on the line of the canal. He crossed from Colon to Panama, seeing much of the canal and the famous Culebra cut on the way, he has taken a trip around Panama Bay and he has been welcomed in Panama city, which lies outside of the canal zone, by President Amador and other officials of the Panama republic.

President Roosevelt left the Louisiana at half past seven o'clock in the morning and came to the Colon dock. Here he was welcomed by Canal Commissioner Shonts, Chief Engineer Stevens and other officials, and the school children of Colon sang "The Star Spangled Banner" and "America" for his benefit. A few moments later President Roosevelt was greeted by President and Mrs. Amador and the Bishop of Panama and at 8:10 a. m. the president and those who had come to welcome him left Colon for Panama by train.

The trip across the Isthmus was made slowly in order to permit the presidential party to have a good look at all the points of interest along the route. Several stops were made on the way over and at each station school children came down and sang patriotic airs.

The presidential train arrived at the Tivoli hotel at half past four. Here President Amador left Mr. Roosevelt and went on to Panama while the American president continued to La Boca, the Pacific entrance to the canal. Here President Roosevelt boarded the steamer Bolivar, made a trip around Panama bay and came back to La Boca for lunch.

In the afternoon the President came from La Boca to Panama city. He drove from the railroad station to the cathedral plaza, welcomed all the way by the cheering of the crowds. At the plaza President Amador delivered an address of welcome and President Roosevelt replied. There was then further singing of patriotic airs by school children, after which the president, escorted by the officials of the republic and a body guard of 500 mounted members of the aristocracy, returned to the Tivoli hotel for the night.

Mrs. John Staub, who has been visiting relatives and friends in this city, went to Leetonia Friday morning.

TERRIBLE ITCHING SCALP HUMOR

Badly Affected With Sores and Crusts—Extended Down Behind the Ears—Some Years Later Painful and Itching Pustules Broke Out on Lower Part of Body—Son Also Affected.

A TRIPLE CURE BY CUTICURA REMEDIES

"About ten years ago my scalp became badly affected with sore and itching humors, crusts, etc., and extending down behind the ears. My hair came out in places also. I was greatly troubled; understood it was eczema. Tried various remedies, so called, without effect. Saw your Cuticura advertisement, and got them at once. Applied them as to directions, etc., and after two weeks, I think, of use, was clear as a whistle.

"I have to state also that late last fall, October and November, 1904, I was suddenly afflicted with a bad eruption, painful and itching pustules over the lower part of the body. I suffered dreadfully. In two months, under the skilful treatment of my doctor, conjoined with Cuticura Soap and Cuticura Ointment, I found myself cured.

"Six years ago my son was laid up with a severe cold, a hard cough, and finally painful eruption all over the body. I procured the Cuticura Remedies as soon as possible, and after his faithful use of same was as well as ever in two weeks, as well as I can recall. He has never had a return of the illness, as far as I know.

"I have always been pleased to commend the Cuticura Remedies, and testify as to their efficacy. I am a veteran of the late Civil War, '61-'65, between twenty and eighty years of age. Yours truly, H. M. F. Weiss, Rosemond, Christian Co., Ill., Aug. 31, 1905."

Complete External and Internal Treatment for every Humor, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, 25c., Ointment, 50c., Resolvent, 50c. (or Pills, 50c. per vial), in the form of Chocolate Coated Pills, 25c. per vial (one month's treatment), may be had of all druggists. A single set often cures the most distressing cases when all else fails. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

ATTACKS OIL TRUST

Federal Government Files Bill Asking That Standard Be Enjoined.

AND DISSOLVED, IF SUIT IS WON

Once Again Uncle Sam Takes Up Tedious Task of Driving Alleged Monopoly from Another Intrenchment—Last Taken 14 Years Ago.

Washington, Nov. 16. — Attorney General Moody, acting through the resident United States district attorney, instituted proceedings against the Standard Oil company of New Jersey under the Sherman anti-trust act, by filing in the United States circuit court at St. Louis a petition in equity against it and its 70 constituent corporations and partnerships and seven individual defendants, asking that the combination be declared unlawful and in the future enjoined from entering into any contract or combination in restraint of trade etc.

The following statement was made public by Attorney General Moody:

In June last, by direction of the president, Messrs. Kellogg and Morrison were appointed by me special assistant attorneys general to act with Assistant to the Attorney General Purdy to make an investigation of the relations of the Standard Oil company of New Jersey to the business of refining, transporting, distributing and selling oil throughout the United States; to ascertain all the facts and report whether or not in their opinion there has been a violation of the Sherman anti-trust law by the Standard Oil company of New Jersey or the persons or corporations associated with or managing it.

Cabinet Considers Report.

The counsel have completed that duty and the report of their investigation has received careful consideration by the president and his cabinet. The information available to the department tends to show that the various corporations and limited partnerships under the control, in the manner hereinafter stated, of the Standard Oil company of New Jersey, produce, transport and sell about 90 per cent of the refined oil produced, transported and sold in the United States for domestic use, and about the same proportion of refined oil exported from the United States; that their share of the business had been procured by a course of action which,

Meeting Called.

The dancing school which was held in Moff's hall last night was not the success that it was expected to be. However, those present enjoyed themselves, and Prof. A. H. Berry instructed them in several late dances, besides teaching several new schoolars. It is not definitely known whether the school will be held next Thursday night or not. A meeting of those interested has been called and definite action will then be taken.

Literary Society.

The Progressive Literary society will meet this evening at the A. M. E. Z. church. A good program has been prepared, and a cordial invitation is extended to all.

Interesting Social.

The Willing Workers met last evening at the home of Mrs. Sophia Jackson, and the meeting proved to be interesting socially, and was a financial success. Short addresses were delivered by Revs. E. A. Adams and H. H. Upthegrove, which were well received and highly appreciated. Mrs. Mary Green of Chicago rendered several piano solos which delighted those present.

Class Meeting.

Class meeting will be held this evening at the A. M. E. church as usual. All are welcome.

Invitations Received.

Invitations have been received by a number of local people to Dewitt Cunningham's dancing party which will be held in Schworm's hall, Massillon, December 3. Music will be furnished by Schworm's full orchestra. Mr. Cunningham gave a series of parties last year which were universal successes, and have become quite popular in this section. Salem is always well represented, and several have signified their intention of attending this event.

Personal.

Miss Nora Mosby of Alliance, who attended the dancing school last evening in Moff's hall, returned home last evening.

Miss Mayme Carson and Prof. A. H. Berry returned to Youngstown this morning after being here to attend the dancing school held last night.

ALLIANCE ITEMS.

Funeral of Mrs. McPherson.

The funeral of Mrs. Thomas McPherson was held from the residence of Mrs. Ernest Castles, South Wayne street, Alliance, yesterday afternoon, and was attended by a large concourse of friends. The services at the house were in charge of the Daughters of Puth of Monongahela, who attended in a body, and the services at the cemetery were in charge of the Eastern Stars. The floral offerings were profuse and beautiful, many being sent by friends of the family residing in Monongahela, Monessen, Pa., and other cities.

Delivered Eloquent Sermon.

Rev. C. M. Hogans, pastor or the A. M. E. Z. church of this city, preached a very eloquent sermon last Sunday on "Separated, and no Tears Shed at the Parting." In part he said: "There are but two ways we must choose, the one or the other. We must follow Ahab or we must go with Obadiah. Men shrink from the unblushing wickedness of the one, but do not care to commit themselves to the earnest piety of the other, and every case of indecision is a gain on the devil's side. Jesus said: 'No man can serve two masters. He that is not with me is against me.' You cannot stand between right and wrong, for there is no foothold beneath. And what was true in this case is true between nations. You must follow Ahab or go with Obadiah. Ahab went one way by himself and Obadiah went another way by himself. They separated. Here principles were separated as well as persons. Companionship between the good and bad of all races must be broken off in order to preserve the union and restore to all people the happiness which they desire. In other words, down with the criminal classes among all races."

Shaw Settles Pittsburg Controversy

Washington, Nov. 16.—Secretary Shaw has selected as the site for the new postoffice at Pittsburg the property between Liberty and Penn avenues and Fifteenth and Sixteenth streets, and as he has received numerous protests against the government paying the price asked for that property he has decided to institute proceedings for its condemnation. It is not the secretary's purpose to discontinue the use of the present postoffice, but the new building will be operated in connection with it.

Make Bolger & French Prove What Pepsikola Tablets Do for Indigestion.

It stands to reason that Bolger & French would not come right out in these columns year after year and ask you to try Pepsikola tablets for indigestion if they were not pretty sure you would receive decided benefit.

You can see that for yourself.

The remedy fails to cure every case, of course, but they always pay your quarter back, should the tablets fail to do good.

Life is to short for misrepresentation in matters of this kind, and for the small profit Bolger & French make on a 25 cent package it would be mighty poor judgment to induce you to make a trip to this store and then sell you something that would disappoint you.

If troubled with sour stomach, heart burn, wind belching, coated tongue, loss of appetite, weakened energy, nervousness, fullness after eating or other stomach trouble, just try Pepsikola tablets on our say so. Our word for it, they will build up your energy, steady your nerves, improve your appetite, enrich your blood and put new life in your stomach as sure as this world.

Schermerhorn-Heston.

Mr. Frank C. Heston and Miss Blanche M. Schermerhorn, two well-known young people, were united in marriage Thursday evening, the ceremony taking place at the home of Miss Ellen Bowman, 66 Ohio avenue, at 7:15 p. m. Rev. C. L. Smith of the First M. E. church officiated, in the presence of about a dozen relatives and close friends of the young people.

The bride and groom were attended by Mr. J. Paul Teas and Miss Sarah A. Bowman, and following the ceremony and congratulations a fine wedding supper was served and an informal reception enjoyed. Mr. and Mrs. Heston expect to go to housekeeping about December 1 at 18 Liberty street.

Mr. Heston is employed as bookkeeper at the Farmers National bank, while the bride, who has long made her home in this city, is well and favorably known.

Among the guests at the wedding were: Mr. and Mrs. Jerome Bowman, Mrs. Emma Smith and son, Donald, Miss Effie MacAllen, Miss Lorraine Barber and Miss Ida Duck.

Dedicated Their New Home.

Thursday evening about 50 neighbors and friends of Mr. and Mrs. A. B. Williamson, only recently married, assembled at their home for an informal house-warming party and to help them dedicate their new home, located three miles north of Salem.

Mrs. Williamson was formerly Miss Elizabeth Royer of Columbiana, where she has a large circle of friends and is just as popular in her new home. Mr. and Mrs. Williamson were the recipients of a number of fine presents. The evening was pleasantly whiled away sociably, and the friends left with hearty wishes for a long happy life in the new home.

Observed 53d Anniversary.

Daniel Burt and wife, prominent old residents of the city, on Thursday quietly observed the 53d anniversary of their marriage at their home on North Howard street. A party composed of a few relatives and neighbors were entertained at dinner by Mr. and Mrs. Burt, and the afternoon was spent pleasantly in a social manner.

GUARDIAN FILES SUIT

Lisbon, Nov. 16.—Mazzini P. Morris, as guardian of Elizabeth Pike of Elkrun township, has commenced suit against Rosecrans M. Baker, asking judgment for $2,075.

The plaintiff's guardian, whose ward is somewhat infirm and an alleged imbecile, sets up that the defendant, as her agent, received from Wm. C. Speaker April 20, 1905, $550 and five promissory notes for $225 each in her favor, payable April 1 respectively, in the years 1906, 1907, 1908, 1909 and 1910 in settlement of her divorce action against Speaker in the circuit court of Davies county, Missouri. An accounting and payment of all money received was demanded a few days ago, but has been ignored by the defendant. Of the amount sued for $400 is alleged to be due on another promissory note. She was married to Wm. C. Speaker here about three years ago, after which they went to his home in Missouri.

A NEW INCORPORATION

Incorporation papers were filed Friday for the Cleveland, Alliance and Mahoning Valley Railroad Co., a new trolley line which will run from Cleveand to Alliance, where it will connect with the Stark Electric, with an east and west line extending to a connection with the Mahonng and Shenango lines into Youngstown.

J. R. Morley, president of the Stark Electric, and James W. Holcomb of Cleveland, are interested in the project. The company is capitalized at $10,000, but this will later be increased to $2,500,000.

This is the line on which City Engineer B. M. French was engaged as engineer for several months early this year.

to call at our store for the greatest strength creator and health restorer which we have ever sold—Vinol. It is not a patent medicine, but the most valuable and delicious cod liver oil preparation without a drop of oil to nauseate and upset the stomach and retard its work.

We do not believe there is a person in this vicinity who cannot be benefitted by Vinol at this season of the year. Vinol is delicious to the taste, and it is recognized as the greatest strength creator for old people, weak, sickly women and children, nursing mothers, and after a severe sickness.

Vinol is unequaled for hacking coughs, chronic colds, bronchitis and all throat and lung troubles. Creates an appetite and makes those who are too thin fat, rosy and healthy.

We have had so much experience with Vinol and seen so many wonderful results from its use that we offer to return money without question if it does not accomplish all we claim for it.

Can anything be more fair than this? Try it on our guarantee. Frank F. Trimble, druggist.

Note—While we are sole agents for Vinol in Salem, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

When You Take Cold

One way is to pay no attention to it; at least, not until it develops into pneumonia, or bronchitis, or pleurisy. Another way is to ask your doctor about Ayer's Cherry Pectoral. If he says, "The best thing for colds," then take it. Do as he says, anyway.

We have no secrets! We publish the formulas of all our preparations. J. C. Ayer Co., Lowell, Mass.

AMUSEMENT NOTES

"When Knighthood Was in Flower."

"When Knighthood Was in Flower" might safely be named "Mary, Mary, Quite Contrary," for when Grace Merrith the Mary Tudor of the play, who is at once imperious and loving, impetuous and deliberate, reasonable and inconsistent, kind and cruel, is on the stage, one finds one's self waiting only her return, so clearly does the piece center about her willful, madcap figure. The character is, perhaps, the most difficult piece of portraiture that Miss Merritt has yet attempted. To carry the vixenish princess through five acts of constant bickerings, scenes of temper and of love making, and yet keep the sympathy of her audience, tests the mettle of an actress to the utmost, yet from the rise of the curtain to its final fall Miss Merritt has those sympathies, and never for a moment allows them a chance to falter. At the opera house tomorrow night.

In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds, and it should be kept at hand ready for instant use. For sale by Bolger & French.

President Criticized for Discharge of Recalcitrant Soldiers.

Salisbury, N. C., Nov. 16.—At a meeting of negro Baptist association of North Carolina resolutions denouncing President Roosevelt for discharging three companies of the 25th infantry were adopted. The body represents a constituency of 160,000 persons. The resolutions unanimously protest against the unprecedented and arbitrary action of President Roosevelt in punishing the innocent and the guilty alike.

"No one for a moment," the resolutions recite, "believes that these companies would have been dishonorably discharged had they been composed of white soldiers.

"The chief executive of a great nation has estranged ten millions of his hitherto ardent admirers and supporters and it is the voice of this convention that a committee be appointed to confer with similar committees throughout the United States to take the steps necessary to have the action of the president reviewed by the highest tribunal of the land."

New York, Nov. 16.—By an unanimous vote the Republican county committee at its regular monthly meeting resolved to ask President Roosevelt to rescind his order discharging dishonorably a battalion of the 25th regiment, United States Infantry.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition, beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling about it. Address Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

ATTACKS OIL TRUST

Continued from Third Page.

beginning in 1879, has continued under the direction of the same persons, in the main, down to the present time; that these persons now surviving are John D. Rockefeller, William Rockefeller, Henry H. Rogers, Henry M. Flagler, John D. Archbold, Oliver H. Payne and Charles K. Pratt; that the design throughout of the persons having control of the enterprise has been to suppress competition in the production, transportation and sale of refined oil and to obtain, as far as possible, a monopoly therein.

They Tighten Their Grip.

Between 1879 and 1882 the design was effected through agreements made between many persons and corporations engaged in this business; that in 1882 the result aimed at was made more certain by vesting in nine trustees (including five of the above named persons), sufficient stock in the 39 corporations concerned to enable the trustees to control their operations in such a way that competition between them was suppressed; that this plan was acted upon until it was declared unlawful by the supreme court of Ohio in an action against the Standard Oil company of Ohio, one of said corporations, in 1892; that during the seven years following the same individual defendants, as a majority of the liquidating trustees, were pretending to liquidate the trust but as a matter of fact were managing all of the corporations in the same way and exercising the same control over them; that the individual defendants, in 1899, increased the stock of the Standard Oil company of New Jersey from $10,000,000 to $110,000,000; that said company was then a producing and selling corporation, and they added to its corporate powers the power of purchasing stock in other companies and practically all of the power exercised by the trustees under the unlawful trust agreement of 1882.

How They Dodged the Law.

That the Standard Oil company of New Jersey, then taking the place of the trustees, acquired all of the stock of the corporations theretofore held and controlled by the trustees, paying therefor by the issue of its own shares in exchange, that the president of the board of trustees became the president of the Standard Oil company of New Jersey, and the same persons (the individual defendants) who had directed the business of the trust then assumed the direction of the business of the Standard Oil company of New Jersey and ever since continued; that the purpose and effect of the use of the Standard Oil company of New Jersey as a holding company was precisely the same as the purpose and effect of the appointment of the trustees hereinbefore referred to, namely, to suppress competition between the corporations and limited partnerships whose stock was first held by the trustees and then by the Standard Oil company of New Jersey; that by the foregoing methods, aided by the establishment of railroad rates for transportation which discriminated in favor of the corporations whose stock was held by the holding company, that company has been enabled to obtain, in large sections of the country, a monopoly of the sale of refined oil with the result that the prices in the consuming territory where the monopoly prevails are very much higher than within the territory where competition to some extent still exists.

Redress is Demanded.

It is believed that these facts, together with others contained in the report of the special counsel, justify and require action by the United States in the courts. Accordingly petition in equity under the provisions of the Sherman act has this day been filed against the Standard Oil company of New Jersey and 70 other corporations and limited partnerships and the seven individual defendants before named in the 8th judicial court at St. Louis, Mo., to have the said combination adjudged and decreed to be unlawful and that the holding and control by the Standard Oil company of New Jersey of the stocks of the 70 corporations be declared unlawful and the said corporations be prohibited from declaring or paying any dividends to the Standard Oil company of New Jersey and be enjoined from entering into or performing any contract or combination to restrain trade and commerce or to monopolize trade in the future.

The question whether any action of a different nature should be taken is reserved for future consideration. The controversy is now pending in the courts and any further comment by this department or by any one connected with it would obviously be improper and unfair.

Criminal Prosecution is Next.

Findlay, O., Nov. 16. — Criminal prosecution of the highest officials of the Standard will be the next move of Prosecutor David, according to a statement made by him. In this prosecution it is stated that Attorney General Wade H. Ellis will assist. Mr. David says he believes he has sufficient evidence to warrant him in bringing all of the officers and directors of the controlling corporation, the Standard Oil company of New Jersey, before the court. John D. Archbold, Henry H. Rogers and William A. Rockefeller are among those mentioned by the prosecutor in connection with his latest move.

NO MORE WOODEN CARS

Pennsylvania Places Initial Order for 100 All-Steel Ones.

Philadelphia, Nov. 16.—The Pennsylvania railroad has decided to place an order for 100 all-steel non-inflammable passenger cars. It is the company's intention to build no more wooden cars and the decision to build steel cars was hastened by the building of the New York tunnel, through which only absolutely fireproof cars will be run.

The Pullman company, at the instance of the Pennsylvania railroad company, is now working on an experimental all-steel non-inflammable sleeping car. About 500 of these cars, it is stated, must be ready for service by the time the New York terminal is completed.

Tricked by Dyspepsia.

The Doctor Couldn't Tell Where the Trouble Lay.

"For the past seven years I have been a victim of dyspepsia and chronic constipation and have consulted the most noted specialists to be found on diseases of this character. None, however, seemed to locate the difficulty or give relief. In addition to this medical treatment, I have resorted to the use of many remedies and have given them faithful trial, but all to no purpose.

"Upon the recommendation of a close friend, I purchased a 50c package of Stuart's Dyspepsia Tablets and in less than five days noticed that I was receiving more benefit than from any remedy I had used before. I continued to use the tablets after each meal for one month and by that time my stomach was in a healthy condition, capable of digesting anything which my increasing appetite demanded.

"I have not experienced any return of my former trouble, though three months have elapsed since taking your remedy."

We wish that you could see with your own eyes the countless other bona-fide signed letters from grateful men and women all over the land who have suffered years of agony with dyspepsia, tried every known remedy and consulted eminent specialists without result, until they gave Stuart's Dyspepsia Tablets a trial. Like the doctor above, they couldn't locate the seat of the trouble.

Dyspepsia is a disease which has long baffled physicians. So difficult of location is the disease that cure seems next to miraculous. There is only one way to treat dyspepsia—to supply the elements which nature has ordained to perform this function and to cause them to enter the digestive organs, supplying the fluids which they lack. Stuart's Dyspepsia Tablets alone fill these requirements, as is shown by the fact that 40,000 physicians in the United States and Canada unite in recommending them to their patients for stomach disorders.

We do not claim or expect Stuart's Dyspepsia Tablets to cure anything but disordered conditions of the stomach and other digestive organs, but this they never fail to do. They work upon the inner lining of the stomach and intestines, stimulate the gastric glands and aid in the secretion of juices necessary to digestion.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. One box will frequently effect a perfect cure. If in doubt and wish more adequate proof send us your name and address and we will gladly mail you a sample package free. F. A. Stuart Co., 61 Stuart Bldg., Marshall, Mich.

Heavy Snow in Wyoming Valley.

Wilkes-Barre, Pa., Nov. 16.—A snowstorm has been raging throughout the Wyoming valley. The fall in this city is fully five inches. On the mountains it is reported to be from seven to 10 inches deep. At Harveys Lake, Pernice and New Haven there is good sleighing.

Don't.

Don't think because you have taken many remedies in vain that you are incurable. You have not taken Hood's Sarsaparilla. It has cured many seemingly hopeless cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility—many cases that may have been worse than yours.

What this great medicine has done for others it can do for you.

Still Pay Big Dividends.

New York, Nov. 16.—The Standard Oil company of New Jersey has declared a quarterly dividend of $10 a share, or the same amount as was declared at this time last year. Shortly after the declaration the stock sold off 20 points to $545.

FINDS FABULOUS WEALTH

Deposit of Manganese of Millions of Tons in West Virginia.

Wheeling, W. Va., Nov. 16.—A wonderful discovery of manganese in almost unlimited quantities has been made in West Virginia at a point not yet made public, and the claim made that experiments and tests already made show the presence of millions of tons of the mineral.

Today Eastern capitalists will arrive here to confer with Dr. R. J. Hersey of this city, the discoverer of the beds of manganese and a company will then be formed and a $750,000 plant put in. The company will have an authorized capital of $1,500,000.

Manganese sells net for $200 per ton or more and the promoters of the company claim to have seven million tons in sight. The National Tube and other steel making companies are greatly interested in the discovery and its importance to the steel industry cannot be exaggerated.

ICEMEN STILL AT LARGE

Toledo Conspirators Obtain Further Respite from Court.

Columbus, Nov. 16.—The supreme court has granted permission to Lemon, Miller and Baird, convicted Toledo icemen, to file petition in error to the sentence imposed upon them by the circuit court, which committed them to the Toledo workhouse for one year and fined them $5,000 each for violation of the anti-trust law. The workhouse sentence was temporarily suspended and the men were ordered released on bonds of $5,000 each.

The indictments against the ice trust of Columbus were held defective by Judge Bigger and the motion of the defense to quash was sustained. The cases were dismissed. Prosecutor Webber said the defendants would be re-indicted by the grand jury which reconvenes Monday.

EVERY FARMER WANTS IT

Rust destroys more farm machinery than does wear. 6-5-4 kills rust; dissolves it, just as water does salt. Get a 25c can of 6-5-4 and save your farm machinery. Any child can apply it; no hard work; goes on like paint, only easier, and dries in 10 minutes, leaving a fine black finish. 6-5-4 is not a paint; it does not cover the rust but, chemically dissolves it and then is absorbed by the iron which is thus made rust proof. 6-5-4 is very thin and runs into the cracks where the brush cannot go. Be sure and get 6-5-4 it is just as good for stoves, stove pipes and wire screens as it it is for machinery.

HEUMATISM

AI ACID BLOOD POISON

m is an acid blood poison, and the causes that produce it are accumulating in the system for years. Poor digestion, s, weak kidneys, torpid liver, and a general inactive condi- stem leaves the refuse and waste matter, which should be sour and form uric acid, which is absorbed into the blood. l is in this acid-charged condition, it deposits the poisons particles with which it is loaded in the muscles, nerves, es. Then Rheumatism gets possession of the system, and serable by its pains, aches and discomforts. The changing exposure to cold and dampness, etc., always increase the severe does the pain become that quick relief must be liniment or plaster is often helpful, but it should be re- relief from such treatment is only temporary, because the trouble is in the blood and cannot be re- moved by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circula- tion and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, re- lieves the pain, reduces the inflammation, ly cures this painful disease. S. S. S. is the only safe treat- matism, because it does not contain a particle of mineral in nage the system. Book on Rheumatism and any medical cnt free.

LABEL ON RADISHES

Showing That They Are Union Grown Is Latest Industrial Wrinkle.

FARMERS JOIN COMPERS BAND

But They Are Told They Must Cease Acting as Strikebreakers and Running Non-Union Printing Offices—First Lesson in Unionism.

Minneapolis, Nov. 16.—The American Federation of Equity, a recently formed farmers' union, has become affiliated in a limited degree with the American Federation of Labor. After a discussion of ways and means, representatives of the toilers of the cities and the tillers of the soil reported to the convention that the only practical action at this time is the co-operation of both, the committee urging a call upon wageworkers still outside the folds of the unions to affiliate with them. The committee further recommended that all members of the Federation demand products of the farm, garden and orchard that bear the union label of the farmers' organization, since the farmers, through their representatives, have given assurances that they will in return purchase nothing but union made goods.

To the end of carrying into effect a mutual understanding the committee presented a resolution to the effect that local unions and city central bodies appoint committees to co-operate in the effort to promote the demand for union label goods and that a fraternal exchange of delegates be continued. The committee's report was adopted.

The chief objections made to the proposed affiliation with the American Society of Equity were that heretofore "farmers' organizations" have turned out to be beneficial principally to the "silk stocking" element, and not to the common laborers, and that in numerous cases young farmers have rushed into the cities and acted as strikebreakers.

President Lynch of the International Typographical union favored the union in general, but said he knew of a member of the American Society of Equity who operates a non-union printing office in Cincinnati and that he would insist that it be made a union shop.

SYMPATHY FOR LABOR

Presbyterian Brotherhood Sends Resolution to Federation of Labor.

Indianapolis, Nov. 16.—The first national gathering of Presbyterian church workers, called the Presbyterian Brotherhood, which has been in session for two days, adjourned last night, after leaving in the hands of a general council of 21 members the naming of the next meeting place and the adoption of a constitution.

The general council includes John H. Converse of Philadelphia, Frederick A. Wallis of New York city, Joseph Alling of Rochester, N. Y., Ralph W. Harbison of Pittsburg, W. R. Farrand of Detroit, J. T. Severance of Cleveland, Franklin W. Gause of Boston and Elisha H. Perkins of Baltimore.

A motion was adopted that a committee be appointed to draft a resolution expressing the sympathy of the Brotherhood for the laboring men of the country. It was further provided that the resolution when completed be sent by Charles Stelze of New York to the American Federation of Labor, now in session at Minneapolis.

MRS. BEECHER INSANE

Court Decides Woman Poisoner Is Not Responsible.

Mt. Gilead, O., Nov. 16.—Mrs. Bessie Beecher, the young wife of Charles Beecher, who was tried on a charge of trying to poison her father, Hezron Hollingsworth, by putting drugs into his coffee, was found not guilty. The jury was instructed to so find on the sole ground of insanity. "I believe the defendant criminally irresponsible," said Judge Campbell, "but have not the assurance that she would not carry out her purpose if permitted to return to her parents." The woman awaits the action of the court.

Charles Beecher, the woman's husband, was sentenced to the Mansfield reformatory for assaulting Hollingsworth with intent to kill.

$5,481 FOR CEILING

Treasurer Berry Thinks Price Paid Sanderson Too Much.

Harrisburg, Nov. 16.—State Treasurer Berry stated that the itemized bills for decorating the new capitol show that $15,284.68 was paid to John H. Sanderson & Co. of Philadelphia for decorating the walls and ceilings of the five rooms in the treasury suite. Mr. Berry also said that Sanderson was paid $5,481 for decorating the ceiling of his private office, the dimensions of which are 15 by 23 feet, and that in his judgment the prices were excessive.

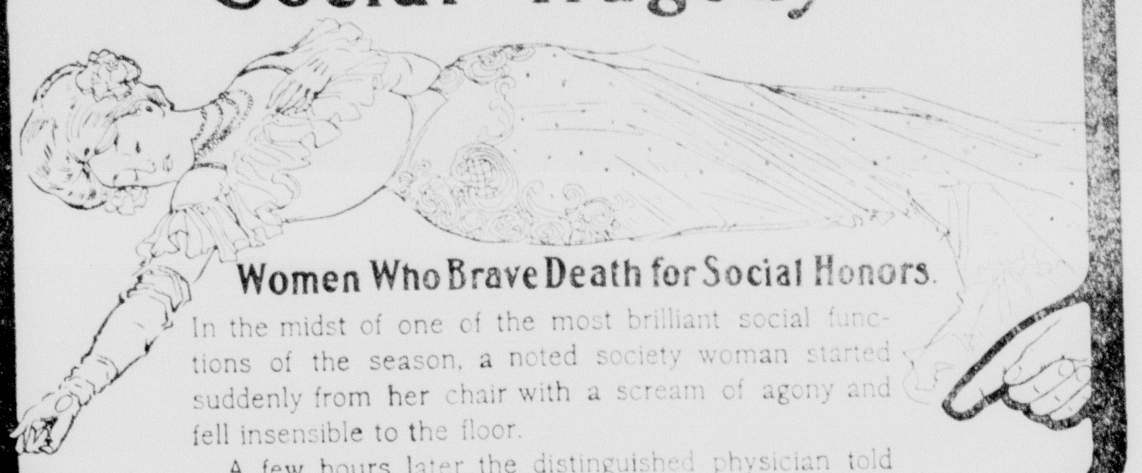
Social Tragedy



Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

A few hours later the distinguished physician told her anxious husband that she was suffering from an acute case of nervous prostration brought on by female trouble, and hinted at an operation. Fortunately a friend advised her to try

Lydia E. Pinkham's Vegetable Compound

The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

DEAR MRS. PINKHAM:—I was troubled for eight years with irregularities which broke down my system and brought on extreme nervousness and hysteria. I could neither enjoy my meals nor sleep nights, became easily irritated and nervous and very despondent. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. After taking the third bottle, my general health began to improve. At the end of the fifth month I was well and could attend to my household and social duties and enjoy life. MRS. CHESTER CURRY, 42 Saratoga Street, East Boston, Mass.

Mrs. Curry, whose portrait appears on the right, is the leader of the Ladies' Symphony Orchestra. The following letter is from Miss Goode, President of the Bryn Mawr Lawn Tennis Club of Chicago:

DEAR MRS. PINKHAM:—I tried many different remedies to try to build up my system, which had become run down from loss of proper rest and unseasonable hours, but nothing seemed to help me. Mother is a great advocate of Lydia Pinkham's Vegetable Compound for female troubles, having used it herself some years ago with great success. So I began to take it, and in less than a month I was able to be out of bed and out of doors, and in three months I was entirely well. Really I have never felt so strong and well as I have since. MISS CORA GOODE, 355 E. Chicago Ave., Chicago, Ill.

Mrs. Pinkham's advice is free to all. Her address is Lynn, Mass.

TRY DANDELION

Try at OUR EXPENSE what Dandelion will do to help you get better. It is an old-fashioned remedy been in use over four hundred years this fact alone proves its value as a medicine. Dr. Edwards' Dandelion Tablets and Pills (a famous private prescription) are the best form in which to take this preparation. Get a free trial package at the drug store named below.

What Dandelion Tablets and Pills Are.

Everybody knows that Dandelion is the most valuable of all Nature's remedies. Well, Dr. Edward's Tablets and Pills are simply common dandelion (Taraxicum) in a concentrated form combined with other harmless ingredients of purely vegetable matter. They are one of the very few proprietary medicines endorsed by the medical profession. If your physician desires to know what these preparations contain, have him write us and we will gladly send him the information together with the name of the expert chemist who superintends their manufacture.

Fac-Simile of Label on Box.

Diseases Cured by Dandelion Tablets and Pills.

Constipation.

In constipation the Tablets act as a mild cathartic; the Pills are slightly stronger, but both tablets and pills act upon the mucous membranes of the intestines, therefore their action is absolutely sure and also for this reason they never gripe or cause the least discomfort. They are equally good for children as well as adults, because they are a tonic and do not produce any unnatural condition of the bowels.

Stomach Trouble.

The Tablets are the best to use in case of Stomach Trouble which takes the form of Dyspepsia, Indigestion, Sour Stomach, etc., because they tone up the system and stimulate the flow of gastric juice, thus very effectively aiding the digestive organs to perform their proper functions. Their mildly cathartic action also relieves the stomach of all refuse and undigested matter.

Kidney Trouble and Rheumatism.

All kidney trouble and nearly every case of Rheumatism is due to presence of uric acid in the blood. Dr. Edward's Dandelion Pills through their direct action upon the Liver and Kidneys restore these organs to a sound and healthy condition. The uric acid then passes away through the natural channel and the blood becomes pure again and free from all poisonous matter.

We only guarantee to cure Rheumatism when it is caused by presence of uric acid in the blood. We have cured hundreds of cases because this is usually the cause of rheumatic affections.

Liver Trouble.

Through their direct and immediate action upon the liver Dr. Edward's Dandelion Tablets and Pills induce a natural flow of bile. This relieves the congested condition of the liver and enables it to perform its important work of keeping the bowels and stomach in a healthy condition.

Nervous Trouble.

It is well to remember that disordered nerves are nearly always caused by a disordered stomach. We do not make a specialty of nervous troubles unless they are caused by stomach trouble—then we cure them permanently.

Home From Cuba.

Homer Arter, formerly of near this city, and now owner of a plantation at Palm City, Cuba, is here for a winter's visit, and will not return for a couple of months. While here he is interesting parties hereabouts in the possibilities of fruit cultivation in Cuba, and is selling some land there to parties from this neighborhood.

Bridge Will Be Razed.

The overhead bridge crossing the old Salem railroad, near the gravel bank about a mile this side of Washingtonville, has been ordered torn away by the county commissioners. The bridge has been closed to the public for a year or so. The removal of the bridge was necessary before trolley wire could be strung.

May Recharter Bank.

May Organize S. of V. Camp.

P. F. Yengling of this city, commander of the Ohio Sons of Veterans, was in Warren Wednesday night, where he addressed a meeting of the young men of that city who are eligible to membership, in an effort to secure the organization of the S. of V. camp there. There are about 75 eligibles in Warren, but there is no camp there. An organizer will be sent there early in December, and it is probable, from the interest displayed at Wednesday night's meeting, that a camp will be organized.

Band Will Play at Funeral.

The Quaker City band held a meeting Thursday evening and decided to attend the funeral of Jabez Parsons, which will be held Saturday afternoon. The band will play several funeral dirges en route. Members of the Alliance, Columbiana and Sebring bands are expected to attend, while musicians from all the nearby cities will probably be present, as Mr. Parsons was one of the oldest and best known musicians in this part of the state, and for several years an instructor of the Salem band.

Application Acted Upon.

Three applications for membership were favorably acted on at the meeting of Amity lodge No. 124, I. O. O. F., held last evening at the Odd Fellows' hall. Next Thursday evening will be observed as rally night, when four candidates will be initiated. A committee was named to arrange for a social session to follow the degree work at next week's meeting, and Wednesday evening next was set as a time for meeting for drill.

HAVE YOU CATARRH?

Breathe Hyomei and Get Relief and Cure—Sold Under Guarantee.

If you have catarrh, with offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty in breathing, sneezing, huskiness, discharge from the nose, tickling and dropping at the back of the throat, especially at night, coughing spasms, etc., begin the use of Hyomei at once.

Its healing medication will give relief in a few days and its continued use will completely drive all catarrhal germs from the system.

Hyomei contains Nature's healing oils and balsams, the germ-killing properties of the pine forests, and goes with the air you breathe to the most remote cells of the respiratory organs, searching out and killing all catarrhal germs and soothing and healing any irritation there may be in the mucous membrane. It is easy and pleasant to use Hyomei, pleasanter than most of the stomach dosing, as its healing air is breathed through a neat inhaler, which can be carried in the purse or vest pocket, and carries medication to just the spot where relief is needed.

The complete Hyomei outfit costs but $1, extra bottles, if needed, 50 cents, and Bolger & French and M. S. Hawkins give their personal guarantee with every package that money will be refunded unless the treatment cures. This shows their faith in the power of Hyomei to cure catarrh.

A Washngtonville Defi.

Washingtonville, Nov. 16.—Daniels, Tetlow and Tourdot are practicing with the Leetonia football team for a game on Thanksgiving with the Defenders of Salem, to be played at Leetonia, and it's only a matter of how much the score will be against the Defenders.

Cut this out and take it to Bolger & French's drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. For biliousness and constipation they are unequaled. They improve the appetite, strengthen the digestion and regulate the liver and bowels. Bolger & French.

Clothing Insurance

Isn't it worth while to be assured that your clothes will please you from the moment you put them on until—a long time off—they have done their work?

Choose CLOTHCRAFT for yours and you CAN be sure.

You can rely upon it that all CLOTHCRAFT Clothes will look well—do well—last well. Over half a century of good reputation is behind every Clothcraft garment.

The things you don't see—the interlinings, tapes, canvas, silks and threads—are all just as good in their way, as the thoroughly and scientifically shrunk all-wool outer fabrics are in theirs.

Everything, from design, or cut, to last touch of iron, is as it should be.

You don't have to pay any premium for this insurance, either. CLOTHCRAFT garments are offered at prices you'll approve.

Suits and Overcoats to $25.
